

RECOGNIZE SAFETY SUCCESSES

Safe + Sound Week is a nationwide event to recognize the successes of businesses that have adopted programs to improve workplace safety and health. Implementing a safety and health program can improve businesses' safety and health performance, save money, and improve competitiveness.

Each August, we invite you to share your safety successes with us! We know that successful safety and health programs can proactively identify and manage workplace hazards before they cause injury or illness, while improving business sustainability. We look forward to learning how your innovative efforts to be **#SafeAndSoundAtWork** have improved your workplace!

Register your **Safe + Sound Week** events so that we can highlight these efforts. For more information, please visit www.osha.gov/safeandsound.

Still developing your safety and health program?

Access important resources at www.osha.gov/safeandsound.

Here you can learn why safety and health programs are important for your workplace as well as how to incorporate worker participation, management leadership, and effective strategies for finding and fixing hazards.

- Create a board for workers to display suggestions to help find and fix workplace hazards.
- Offer a training on safety and health in your workplace.
- Recognize a safety milestone and employee contributions with a party (hint: everybody loves cake).
- Host an informal "lunch and learn" on an element of your safety and health program.
- Hold a demonstration on proper use of safety equipment.
- Have employees sign a banner to commemorate a new safety and health goal.
- Offer opportunities for employees to share "what safety means to me" in the workplace.
- Challenge your supply chain to celebrate **Safe + Sound Week** with you to help build safety culture and improve safety.
- Host a trivia session on how well employees know safety and health practices.
- Offer "on the spot" recognition of employee participation.
- Complete the "Take 3 in 30" challenge for management leadership.
